Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

The name of this product is Sickness Income Plus. It is provided by Wiltshire Friendly Society Limited. Our website address, where you can find detailed information about us, is www.wiltshirefriendly.com and our telephone number is 01225 752120. We are supervised by the Financial Conduct Authority in respect of the production and delivery of this Key Information Document (KID). This KID was produced in May 2022.

What is this product?

It is a Friendly Society income protection Plan (categorised as a long-term product) which additionally may pay you a lump sum when the policy ends. It is called a Holloway Income Protection Plan. The Plan is intended for people who have no income protection, or who are part of an employer's sick pay scheme which would not pay sufficient income, or for a long enough period, should the person be unable to work because of illness or injury.

The primary objective of the Plan is to provide you with an income, which will be a proportion of your normal income, if you are unable to work because of illness or injury. When the sickness benefit will commence, how much it will be and how long it will be paid for is agreed with you when the Plan starts.

Income is paid free of income tax and capital gains tax under current legislation and the rules of HM Revenue & Customs.

A secondary objective of the Plan is to pay you a lump sum when the Plan reaches its maturity date at your selected retirement age. This amount may vary dependent upon you paying all contributions, the period for which the Plan runs, the investment results achieved by us, our administration expenses and the level of sickness claims experienced across all of our Holloway Income Protection Plans. The lump sum is built up over the years by the addition of bonus amounts, at the discretion of the Board of Management of the Society each year, taking into consideration the advice of the Appointed Actuary.

Your lump sum is not subject to Income Tax. Where tax is payable on the Society's investment income, because invested funds are pooled, any such liability is met by the Society. Therefore bonus is allocated on a tax paid basis with no further taxation due from you.

It invests your contributions in a pooled fund which is invested in a mix of equities, Government Gilts, corporate bonds, property and cash. This spread of assets allows a cautious investment strategy to be pursued and is designed to reduce the level of investment market risk, the level of credit risk and to ensure the fund is at all times liquid enough to make payments when requested to do so by Plan holders.

The Plan cannot be terminated by us unilaterally provided the Rules of the Society are not broken by you. You can end the Plan yourself by giving us notice of your intention to do so.

What are the risks and what could I get in return?

Summary Risk Indicator (SRI)

1	2	3	4	5	6	7
---	---	---	---	---	---	---

◀ LOWER RISK HIGHER RISK ▶

The Summary Risk Indicator assumes you keep the Plan until your normal retirement age. The actual risk can vary significantly if you end the Plan early.

The SRI is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7 which is a “medium-low” risk class. This rates potential losses from future performance as unlikely.

The amount of the cash sum built up will depend primarily on the Society’s investment performance and the level of sickness claims made by all Members who have Holloway Income Protection Plans with us. If investment performance is poor over a long period and sickness claims are significantly higher than expected, then it is possible that no cash sum would build up.

If you do not hold this Plan until its original maturity date the risk of getting back less than originally advised to you at outset is significantly higher.

If we are not able to pay you what is owed you may lose some or all your capital but you may benefit from a consumer protection scheme (please see the later section “What happens if Wiltshire Friendly Society Limited is unable to pay out”).

The investments underlying this product are managed on our behalf by the professional investment management firm LGT Vestra LLP. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £1,000 per year. The figures are estimates and may change in the future. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

How long should I hold it and can I take money out early?

You should hold the Plan for as long as the income protection it provides is needed by you. By holding the Plan for the medium to long term there is a greater probability that you will achieve the level of cash lump sum that you expected when commencing the Plan. You may apply to withdraw part of your accumulated cash sum, after bonuses have been awarded, within 3 months of the following events – your marriage; birth of your child; death of your spouse. Withdrawal of cash for any other reason is at our discretion. If you wish to cancel the policy before the end of the initial agreed term you can do so without penalty but the cash sum will be less than if the Plan is maintained for its full term..
